

PARENT ACCESS TO REGIONAL DATA SERVICES (RDS)

RDS, Parent Access enables parents to quickly retrieve information regarding grades, attendance, discipline, and homework via a web-based system.

Parents will need a 16 digit authorization code. To be issued a code, send an email to RDSParent@lcscmail.com with the following information:

Watson
Student's name
ID number _____
Grade

You will receive the access code through the US mail. This code will only be sent to the legal guardian of each student. It is important that you file this code in a safe place, as it will require anyone who misplaces the code to email RDSParent@lcscmail.com to receive a duplicate copy. A separate instructional letter on the details for use of this system will accompany the authorization code.
